## **Applying for positions advertised on our job portal**

The easiest way to apply for a job at Bosch is a direct application for a position advertised on one of our job portals. Your application will be assessed as per our internal processes.

Paper applications are entered manually in our applicant management system and then either returned to you or destroyed. You will receive an e-mail allowing you to activate your application once it has been manually entered in the system. If you do not activate your application within 30 days, your data will be deleted from our applicant management system and you will be removed from the selection process.

You also have the option to make use of your own personal network and submit your application via an associate of the Bosch Group. Simply forward your résumé to the associate, who will then upload it to the applicant management system. You will then receive an e-mail allowing you to activate your application. If you do not activate your application within 30 days, your data will be deleted from our applicant management system and you will be removed from the selection process. We can recognize that a Bosch associate has recommended you. The associate in question can see an overview of the status of your application, but cannot see any further details of your application process.

We keep you up to date on the status of your application by e-mail. You are free to edit your data or withdraw your application at any time during the application process. To do so, you require a SmartRecruiters profile, which you can create on the SmartRecruiters website.
